TECHNICAL SKILLS AND INTERESTS

Languages: C++, Python

Machine Learning: Scikit-learn, TensorFlow, PyTorch

Web Development: Flask, Streamlit

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn

Databases: MySQL, SQLite

Soft Skills: Problem-solving, Analytical Thinking, Continuous Learning

EDUCATION

- **VIT Bhopal University** 2023 - Present
B.Tech in Computer Science and Engineering CGPA: 8.71 (Till 5th semester)
- **FIITJEE Junior College** 2020 - 2022
11th & 12th Grade (Intermediate) Percentage: 77.4%
- **Visakha Valley School (CBSE Board)** 2019 - 2020
10th Grade Percentage: 82.8%

CERTIFICATIONS

- **Introduction to Machine Learning** - NPTEL
- **Bits and Bytes of Computer Networking** - Coursera

ACADEMIC PROJECTS

- **Multiple Disease Prediction System** 2025 - Present
Machine Learning, Streamlit, Python
 - Developed a web-based application to predict diseases like Diabetes, Heart Disease, and Parkinson's using Machine Learning models.
 - Used Streamlit for UI and Scikit-learn for ML models to build the system.
- **Alzheimer's Detection System** 2024 - Present
CNN, Deep Learning
 - Implemented a deep learning model using Convolutional Neural Networks (CNN) to detect Alzheimer's disease from MRI scans.
 - Achieved 98.6 percent accuracy in classifying Alzheimer's stages based on MRI scan analysis.
- **Movie Recommendation System**
Machine Learning, Python
 - Designed and implemented a movie recommendation system using collaborative filtering and content-based filtering techniques.
 - Utilized Pandas and NumPy for data preprocessing, and Scikit-learn for recommendation models.
 - Applied TF-IDF and cosine similarity to improve recommendation accuracy.
- **Credit Card Fraud Detection**
Machine Learning, Random Forest
 - Developed a fraud detection model using Random Forest after comparing multiple ML algorithms.
 - Preprocessed data with Pandas and engineered features to boost model performance.
 - Visualized data using Matplotlib and evaluated with Scikit-learn.
